

CORDING'S

Incomparable Waterproofs

The "YEO" Coat for all-round wear

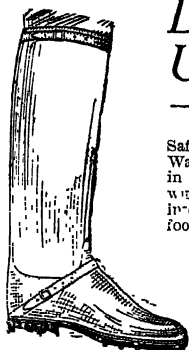

Mile on mile through the teeming rain, yet home at nightfall dry, bone-dry, if you wear a "Yeo." And years of such staunch protection too, for the "Yeo" lives long.

Fine materials in either light or medium weight, the strongest woven for the purpose, and liberally proofed with pure rubber; the splendid workmanship of the premier "hands" in the trade—there is all the secret of "Yeo" quality.

A good-looking shapely coat which slips on or off readily, the "Yeo" is specially featured for riding since it is full-skirted, fitted with leg-loops, and has fan-piece in slit at back, but it is thereby none the less useful for general wear also.

"Yeo" light-weight Coats stocked in many sizes come in our No. 22, a lightweight (3½ lbs.) biscuit fawn cloth, strong enough for all but the roughest wear. Also in No. 90, a sturdy, one might say wear-proof, fawn twill cloth. Price in either cloth, 90/-

We shall be pleased to send a "Yeo" Coat on approval on receipt of remittance or reference. Height and chest measure over jacket suffice to indicate size. List and patterns at request.

DANGER UNDERFOOT! —AND A SAFEGUARD

Danger lies underfoot when you go squelching through miry lanes, tramping across wet fields with just your ordinary boots on. Discomfort apart, serious illness is likely to be the penalty for carelessness in getting your feet damp or wet.

Safeguard your health then by wearing our "Newmarket" Waterproof Boots. Walk all day long in the mud or over waterlogged fields, fish in them, shoot in them, go through ditches and streams, and at nightfall come back home with warm dry feet and legs. The tops are made of a tough-wearing tan twill interlined with a stout layer of pure rubber. Special tan leather covers the foot-part and only seasoned first-grade sole leather is used.

Also supplied for ladies in lighter weight. NET PRICE 120/-

To order, subject to approval, please state size of boot worn or give pencilled outline of foot in sock and if first transaction give business reference or add remittance.

Two Coats for the Price of One

The Dual Burberry on Fine Days

The Dual Burberry on Wet Days

THE DUAL BURBERRY

built in two distinct materials—Burberry Gabardine one side and Wool Coating the other--provides the services of two separate Overcoats—

Tweed Coat on Fine Days
and
Weatherproof on Wet

and is instantly convertible from one to the other as the weather or occasion requires.

The Dual Burberry

ensures complete protection. Rain, snow, wind and cold all fail to penetrate it, yet it ventilates naturally, and is surprisingly light and comfortable on mild days. For

Town, Racing or Travel

the Dual Burberry satisfies every requirement in every kind of weather, and, at the same time, is very real economy in that it provides two Overcoats at the cost of one.

PREFACE.

IN presenting a new issue of "Ruff's Guide," the publishers have adhered to the lines followed last year which made the 1926 edition so widely appreciated by keen supporters of the British Turf.

Once more the whole of the information relating to racing during last year, and the principal races for the current year, is presented in a single volume, instead of two volumes annually, as was the case prior to 1926.

This change, experience has taught, lends itself to handier reference, avoids the necessity of consulting two books instead of one, and—although this is a minor point—saves some space in the library.

The past year was made particularly noteworthy by the imposition in this country of a tax on all betting made with a bookmaker. An outline of the Betting Duty clauses of Mr. Winston Churchill's Finance Act is given in this volume.

In every respect, the present issue of "Ruff's Guide" will be found equally as comprehensive as its immediate predecessor.

A glance at the table of contents will reveal the exhaustive nature of the information contained in its pages. Every care has been exercised to ensure accuracy. The inclusion, once again, of placed horses in all the five Classic Races, instead of the Derby and St Leger only, as formerly, is an instance of the more complete Turf records which the remodelled issue of "Ruff's" has enabled us to present.

All the old features of "Ruff's Guide," which experience has taught are essential to close students of racing, have been retained, and in addition several pages of "Facts and Records in Turf History" will be found to contain many items of interest which are the subject of constant reference and discussion.

Office of "Ruff's Guide,"
March, 1927.

To OWNERS and TRAINERS of Racehorses

The lightest and strongest racing plates in the world are the "New Century." Guaranteed not to spread during races. The most famous racehorses have won classic events plated with these plates.

The "NEW CENTURY" Alumite RACING PLATES

(PATENT 12609)

List of Classic Winners who won their races wearing "New Century" Alumite Racing Plates :

*Lemberg	†Salmon Trout
*Sunstar	†Solario
*Pommern	†Take My Tip
*Fifinella	†Comrade
†Gainsborough	†Lemonora
†Gay Crusader	†Diophon
*Spion Kop	Buchan
*Humorist	†Diadem
*Sansovino	†Tetratema
†Bayardo	†Mumtaz Mahal
†Prince Palatine	†Sir Gallahad III
†Swynford	†Epinard
†Keysoe	†Phalaris
†Tranquil	†Colorado
†Your Majesty	†Saucy Sue
†Black Jester	†Brownhylda
*Derby winners	†Grand Prix winners
†Derby and St. Leger winners	
†St. Leger winners	

Manufactured in sections to comply with the Rules of every Jockey Club in the world.

The average weight of the "New Century" Racing Plates are from 5 to 7 ozs. per set of 4. The "New Century" Alumite Tips weigh from 2 to 3 ozs. per set.

For American use we supply the plates with American Toe Grips. The plates being made from the solid material leaving the Toe Grip any height required and therefore not liable to break off as ordinary toe grips do through being brazed on to the plate.

We keep a large stock of "New Century" Alumite Racing Plates which enables us to dispatch orders immediately.
